GONE TO THE RANGE COUNTRY

James Graham left yesterday for Apache county where he will reside permanently, or at least for some time. His family will join him later. Mr. Graham has been appointed to the office of stock ranger on the reservation, a position in the Indian service connected with the raising of the Indian herds in the White river country. Mr. Graham will travel overland going via Globe.

THE FINDING OF A PISTOL—A little son of A. J. Porterle yesterday found a pistol which once nearly took part in a tragedy. It will be remembered that two or three years ago a street car on the Indian school line was held up by some unpracticed individual, presumably a desperate tenderfoot who demanded that the lone conductor throw out the company's strong box. Before that official had time to comply the gun of the highwayman went off and wounded the conductor but not seriously. It was not thought that the man meant to shoot but that in his excitement he pulled the trigger. At any rate as soon as the gun was discharged he ran off and no clue was ever obtained to his identity. This gun was found along the track not far from the scene of the holdup. It was covered with rust and had the appearance of having lain there a long time. It is supposed that the frightened robber threw it away as he ran.

REGISTRATION—The registration list rounded the 700 mark last evening and they are still coming. This is the last day and 12 o'clock tonight is the last minute. The time is short and its now or never for those who have neglected to get their names down.

GLOBE IS BOOMING—P. J. Cole of Globe, formerly mayor of this city, arrived here yesterday and is a guest of the Commercial hotel. Mr. Cole says Globe is booming and is turning out more copper now than ever before in her history. Twelve hundred tons of ore are smelted daily and the copper output is at the rate of over 3,000,000 pounds per month. The railroad service between Globe and Bowie is reopened again and five locomotives are busy trying to catch up with the freight business. But they are still far behind and Mr. Cole was authoritatively informed that there are yet 1800 cars of freight in the various yards between Bowie and Globe, awaiting delivery at the latter point.

CAMPAIGN OPENED—A mass meeting of the democratic reformers was held last night on the city hall plaza. The meeting was heralded by the band and a large crowd was attracted, partially by the music and partially by a mysterious announcement in hand bills distributed all over town in the afternoon that a surprise was in store for all who came. In the form of a speaker of prominence and renown. There was a great craning of necks to see him. The audience could hardly wait until he made his appearance but there was nobody but the nominees of the party ticket and J. H. Langston who had been made chairman to conciliate him for things that had taken place at the convention the night before. The first speaker was Mr. Powers, the nominee for mayor and the second was Judge McCormick candidate for recorder. He was succeeded by Eugene Brady O'Neill, the nominee for treasurer. At the close of the address of Mr. O'Neill Chairman Langston said that the management had been disappointed in the matter of the surprise and the audience would necessarily have to be disappointed. He stated that arrangements had been partially made for the presence of a noted labor leader but information had been received after the

publication of the hand bills that he would be unable to reach the city in time for the meeting last night. The speeches were listened to attentively notwithstanding the somewhat monotonous theme of all the speakers, "reform" that ever popular issue among the out.

ARIZONA TOWNS INVITED

To Take Part in the Lewis & Clark Exposition in Arizona Week.

A communication addressed to the territorial commission, meaning the exposition commission has been received at the office of the governor, the commission having passed out of existence and no commission having been appointed to represent the territory at the Lewis & Clark exposition.

The communication is in part as follows: "I have the honor to inform your commission that President Goode of the exposition has requested the governor of Arizona to issue a proclamation at an early date announcing to the people of your territory that the exposition management has set aside the period commencing Monday, Aug. 28 and ending Sept. 2, for 'Arizona Cities' Week."

"We have also asked the governor to urge the people to take advantage of the opportunity thereby afforded to do honor to your great territory's splendid representation here and at the same time to enjoy the manifold educational advantages of the exposition."

"Our purpose is to invite the mayors or authorities in each city to issue a proclamation to arrange for the visit of a worthy delegation on the day allotted by us for that locality's special celebration at the exposition."

"In your territory the following places will be invited to participate: Phoenix, Prescott, Jerome, Flagstaff, Winslow, Globe, Pima, Solomonsville, Thatcher, Nogales, Tombstone, Yuma and Tucson."

"The exercises of the day should be brief and simple. We propose with your cooperation to have the delegations from Arizona to meet at one of the state buildings which courtesy will be accorded) shortly before noon. A member of your commission could act as chairman of the day and one of the commission in whose building your delegations meet would extend greetings on behalf of the exposition management. Then the mayors or other representatives could follow. The exposition management would provide the administration band for the occasion."

"Inasmuch as there are thirteen cities and towns invited to celebrate special days in the period allotted to Arizona, it is apparent that several places will have to share the same day in which instances the exercises would be correspondingly shortened as regards each participating locality."
